

INDUSTRIAL REPORT A MIX-UP

Three Factions Are Represented at End of Two-Years' Work.

By United Press.
CHICAGO, August 14.—The Federal Industrial Relations Commission today finished its two-years' investigation into the trouble between capital and labor, in a clash of discord without arriving at definite decision.

The commission is divided into three factions, each signing a separate report. The first report, by B. M. Manley, concurred in by the labor faction, scores the labor trouble in Colorado. Chairman Walsh, in the Manley faction and report, says that 20 per cent of the school children of the United States are underfed, one-third of the working men are in poverty and one-half of the women workers in the country get less than \$6 a week.

Prof. John Commons of the University of Wisconsin, makes a second report, which goes into labor troubles mildly. With him are Mrs. J. B. Harriman and others. Commons recommends the legalizing of boycotting.

H. Weinstock of California, R. H. Aishton of Chicago, and S. T. Ballard of Kentucky, who signed the second report, make a third report taking exceptions to the second, which are included in the third report, known as "Employers' Faction Report."

REPUBLICAN LEADERS MAY SPLIT

Trouble That May Expand Develops in New York Convention.

By United Press.
ALBANY, N. Y., August 14.—A split in the Republican leaders which may have important bearing on national politics developed today in the work of framing the new state constitution. The chance for healing is slight. William Barnes has broken with Elihu Root. Governor Whitman has taken sides with Barnes.

Henry L. Stimson, former Secretary of War and Root's law partner, who is being groomed as a candidate for governor by the "Federal Crowd," is said to have turned Whitman against an important proposed article in the new constitution. This article would give the Governor great power through a patronage of \$5,000,000 annually, not to be effective while Whitman is governor, unless he is re-elected.

GREEKS INCLINE TOWARD WAR

Recruits of 1915 Class Called to Colors as Parliament Convenes.

By United Press.
LONDON, August 14.—With the Greek parliament about to convene, the Greek government today called the recruits of the 1915 class to the colors. Official circulars lead to the belief that former Premier Venizelos is shortly to come into power. It is thought that he may have won over King Constantine to the program that included the cession of Macedonia to Bulgaria in return for the promise of the possession of Smyrna and a joint entrance of Bulgaria and Greece into the war on the side of the Allies.

White Eagle Dairy Company
Columbia, Mo.

Gentlemen:—

When our little girl was three months, old we began feeding her exclusively on the pasteurized milk from your dairy.

She began to thrive immediately and since that time she has had no other food. About three months ago she went to visit her aunt in another town and fortunately we found a dairy in that town that also sells pasteurized milk.

We notice no difference and certainly this speaks well for pasteurized milk, for a change of food for a baby is usually a dangerous experiment.

We certainly recommend your pasteurized milk for babies and also for grown persons, for we use it in our home exclusively.

Very truly yours,

Mrs.
